

Animal Science Products, Inc. Adds Their Newest Distribution Partner, “Reform, Turkey”

April 1, 2011

Reform Distributor

Nacogdoches, Texas - Animal Science Products Inc., a leading family owned premix blender, feed additive distributor and package goods manufacturer, has entered into a distributor agreement with Reform of Turkey.

Reform, led by Ms. Sake Yalcin, President, will be distributing the full array of Animal Science Products Water/Vaccine Stabilizers as well as PKA[®], a pH water treatment product. The array of stabilizers includes Vac-Pac[®] and Vac-Pac Plus[®] for drinking water vaccination, Spray-Vac[®] for spray vaccination in both the hatchery and poultry house, and Opti-Vac[®] for protection of eye drop vaccines. These products are recognized around the globe for performance and value.

Commenting on the addition to the ASP family, Mr. Bailey Reynolds, President of Animal Science Products, Inc. said, “We gladly welcome Reform to Animal Science Products’ growing family of international distributors. We are very pleased to be working with Ms. Sake Yalcin, Mr. Zafer Bozdogan, and Mr. Ayhan Mutlu of the Reform team. We look forward working with them to introduce the ASP family of products to the Turkish market.”

Animal Science Products, Inc. is a family owned and operated business that was founded in 1985 to service all facets of the feed and food animal production industry. The firm produces and distributes a broad range of high-quality feed additives, micro ingredients and premixes for all species. Animal Science Products also serves the livestock, poultry, and companion animal markets with nutritional and health-related packaged goods. The company currently has sales in twenty three states and twenty five countries. To learn more about Animal Science Products, Inc., please visit our website at www.asp-inc.com.
