

Animal Science Products Expands Sales Into Pakistan Through Their Newest Distribution Partner, “Tec-Man International”

March 1, 2010

Nacogdoches, Texas - Animal Science Products Inc., a leading privately-owned premix blender, feed additive distributor and package goods manufacturer, has signed a distributor agreement with Tec-Man International in Pakistan.

Tec-Man International, led by Mr. Saqib Dawood Chaudhary, will be distributing the entire family of ASP Water/Vaccine Stabilizers as well as PKA®, pH water treatment. The Vaccine Stabilizer line includes Vac-Pac® and Vac-Pac Plus® for water application vaccination, Spray-Vac® liquid for spray vaccination in both the hatchery and poultry house, and the newest family member, Opti-Vac® for protection of eye drop vaccines. These products are recognized around the globe for performance and value.

Additionally, Tec-Man International will be distributing ASP's OrganiGuard® Dry and Liquid. OrganiGuard® is an organically-based, non-corrosive, heat-stable antimicrobial solution that provides unsurpassed protection against aflatoxin-producing molds and bacteria in feed. It is not an antibiotic, so it can be used in antibiotic-free programs or in combination with any medication regimen.

Tec-Man International will also distribute one of our specialty products, Acidified Copper Sulfate, an economic soluble source of supplemental copper for poultry, used in water and feed, which serves as an algae reducer in drinking water lines.

Commenting on the addition to the ASP family, ASP President Mr. Bailey Reynolds said, "We welcome Tec-Man International to the Animal Science Products family of distributors. The Reynolds family is very pleased to be working with Mr. Saqib Dawood and Tec-Man International. We look forward to a long and prosperous relationship."

Animal Science Products, Inc. is a family owned and operated business that was founded in 1985 to service all facets of the feed and food animal production industry. The firm produces and distributes a full array of high-quality feed additives, micro ingredients and premixes for all species. Animal Science Products also serves the livestock, poultry, and companion animal markets with nutritional and health-related packaged goods. The company currently has sales in twenty three states and twenty five countries. To learn more about Animal Science Products, Inc., please visit our website at www.asp-inc.com.
