

**Animal Science Products Expands
Sales Into Egypt Through Their Newest
Distribution Partner, The Egyptian
European Company**
Friday June 12, 2009

Nacogdoches, Texas- Animal Science Products Inc., a leading privately-owned premix blender, feed additive distributor and package goods manufacturer, has signed a distributor agreement with The Egyptian European Company of Cairo, Egypt.

The Egyptian European Company will be distributing the entire family of ASP Vaccine Stabilizers. This line includes Vac-Pac and Vac-Pac Plus for water application vaccination, Spray-Vac liquid for spray vaccination in both the hatchery and poultry house, and the newest family member, Opti-Vac for protection of eye drop vaccines. These products are recognized around the globe.

Additionally, the Egyptian European Company will be distributing two product brands from the ASP feed additive line. The first being the Nature's Mill brand which includes MagnaFerm, FermaStar, and Microzyme. Next is the OrganiGuard brand of Feed Additives including liquid and dry. The OrganiGuard liquid and dry are uniquely formulated mold inhibitors, developed by ASP through more than 20 years of experience in the mold inhibitor market.

Animal Science will be attending the AGRENA Show in Cairo as a featured vendor to The Egyptian European Company. Mr. Ryan IZARD Director of Nutrition and Technical Services for Animal Science Products will be presenting a technical seminar surrounding the Vaccine Stabilizer family which includes: Vac-Pac, Vac-Pac Plus, Spray-Vac and Opti-Vac. The seminar will be on Friday the 3rd of July from 7-9 pm on the Mezanian Floor of the Cairo International Conference Center.

Animal Science Products, Inc. is a family owned and operated business that was founded in 1985 to service all facets of the feed and food animal production industry. The firm produces and distributes a full array of high-quality feed additives, micro ingredients and premixes for all species. Animal Science Products also serves the livestock, poultry, and companion animal markets with nutritional and health-related packaged goods. The company currently has sales in twenty three states and twenty five countries.
