

# ACIDIFIED COPPER SULFATE

*Specification Sheet*

*SUPPLEMENTAL COPPER*

[www.asp-inc.com](http://www.asp-inc.com)

## INDICATIONS

Use as a source of supplemental copper for chickens and turkeys.

## INGREDIENTS

Copper sulfate pentahydrate.....86.36%\*  
Citric acid, anhydrous.....13.64%

\* Supplies 21.97% elemental copper.

## DIRECTIONS

Water: Dissolve one, 1 lb package in 2 gallons of stock solution and meter at 1 ounce per gallon of drinking water. One pack treats 256 gallons of drinking water.

Feed: Use five, 1 lb packages per ton of complete feed. Use for 5-10 days or as conditions indicate.

## PACKAGING

1 lb (454 gm) individual packages

30 packages per reusable shipping bucket.

## ADVANTAGES

- Source of supplemental copper for chickens and turkeys.
- Can be used in water and feed.
- Controls algae in evaporative cooling systems.
- Reduces algae in drinking water lines.
- Economic source of soluble copper.

## CAUTIONS

Keep out of reach of children.

Not for human consumption.

Store in a cool, dry place.

Use only in non-metal containers when mixing concentrated solutions.

Do not feed to sheep or other species susceptible to copper toxicity.
