

SPECIFICATION SHEET

PET-OX[®] brand DRY

DESCRIPTION A dry antioxidant for all processed petfoods.

INGREDIENTS Calcium Carbonate, Processed Grain By-products, Synthetic Amorphous Silicon Dioxide Hydrate, Soybean Oil, Citric Acid, Butylated Hydroxyanisole and Butylated Hydroxytoluene.

COMPATIBILITY Compatible with all common feed ingredients.

PRODUCT NO. AND PACKAGING 07882; 50 lb unit

COLOR Tan

ODOR Characteristic

pH OF A 10% SOLUTION 5.2-5.6

RESIDUE Less than 5% (20 mesh screen)

FLOWABILITY Excellent

BULK DENSITY 36-40 lb/ft³

STORAGE Store in a cool, dry place. Keep container closed when not in use.

DOSAGE Use with petfood at ¼ to 1 lb per ton.

APPLICATION Unsatisfactory performance of antioxidants is often attributable to inadequate application technique. Uniform dispersion of relatively small amounts of antioxidants is essential to obtain maximum benefits. For convenience, antioxidants can be readily applied via a vitamin premix containing sufficient antioxidant to adequately protect the finished feed.

KEMIN INDUSTRIES, INC. • 2100 Maury St., Box 70 • Des Moines, IA U.S.A. 50301-0070 • 515/266-2111
