

# ENERGY SOURCE 100

Dry Fat Supplement for Use in Animal Feeds

## *Product Information*

### **Description**

**ENERGY SOURCE 100** is an advanced, dry energy supplement containing 100% pure vegetable fat. It is white in color and is prilled to form free flowing beadlets with outstanding handling characteristics. It is perfectly engineered for optimum handling in microingredient machines. Energy Source 100 is highly palatable and is a great source of energy for performance horses and all classes of livestock.

The white densely prilled Energy Source 100 is non-dusty with a pleasant aroma. It is ideal for pelleted feeds, grain mixes, and as a top dress.

### **Typical Analysis**

Crude Fat, Minimum . . . . .	99.0%
Total Fatty Acids, Maximum . . . . .	90.0%
Unsataponifiable Matter, Maximum . . . . .	2.0%
Insoluble Impurities, Maximum . . . . .	1.0%
Moisture, Maximum . . . . .	1.0%

### **Ingredients**

Energy Source 100 is manufactured by partially hydrogenating 100% pure vegetable fat. It is dried to form a tiny spherical prilled beadlet. The fat is stabilized to ensure maximum shelf life. Energy Source 100 has a naturally pleasant aroma that is mildly enhanced by artificial flavoring.

### **Feeding Instructions**

Energy Source 100 is a dense source of energy for performance horses, pleasure horses, and all classes of livestock. It can be mixed into pelleted rations, top dressed, or incorporated into the grain mix at 2.5 to 5% to increase the total energy and fat level in the diet.

### **Packaging**

Available in 50 lb. (22.68 Kg) bags.
