

ORGANIGUARD LIQUID

www.asp-inc.com

Specification Sheet

*BUFFERED ORGANIC ACID-BASED MOLD INHIBITOR,
PRESERVATIVE AND SURFACTANT*

DIRECTIONS FOR USE

Mixed feeds: Thoroughly mix 1-2 pounds of OrganiGuard liquid into each ton of feed.

Processed ingredients: Mix or spray 1-4 pounds of OrganiGuard into each ton of processed ingredient, such as flaked grain etc.

INGREDIENTS

Propionic acid, ammonium hydroxide, phosphoric acid, benzoic acid, sorbic acid, methylparaben, propylparaben, and BHA.

CAUTIONS

For animal use only.

Not for use in humans.

Keep out of reach of children

PACKAGING

Product options include:

Bulk tankers

2,800 lb (1,270 Kg) liquid totes

450 lb (204 Kg) drums

ADVANTAGES

- Arrests mycotoxin production by inhibiting mold growth in mixed feeds and processed feed ingredients
- Superior preservative concentration
- Buffered to a more neutral pH for reduced corrosiveness
- Fast-acting lipophilic molecules speed the uptake by spoilage organisms
- High pK_a more effectively disrupts internal metabolism of unwanted microorganisms
- Bacteriostatic- inhibits spoilage from bacterial contamination
- Surfactant activity with multiple active ingredients provide more complete coverage
- Flavored to pleasantly neutralize aroma
