DIRECTIONS FOR USE

Mixing directions: Mix 1 gallon of PIPERAZINE-34 with 1 gallon of water and meter at 1 oz. per gallon. Use as a sole source of drinking water.

See the back of this page for full label directions.

INGREDIENTS

Guaranteed Analysis:
Each 100 cc contains 34 grams of piperazine (as sulfate), color, flavoring and preservative added.

PACKAGING

1 Gallon containers
4 Gallons per case

CAUTIONS

Although piperazine is a drug with a wide margin of safety, occasionally an animal may show nausea, vomiting or muscular tremors. Such side effects are usually associated with overdosage. Therefore, recommended dosages should be followed carefully. Animals with known kidney pathology should be treated only by a veterinarian. Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.

For oral animal use only.

Not for human consumption.

Store out of direct sunlight and above freezing temperatures.

Keep out of reach of children.

PIPERAZINE-34

ADVANTAGES

• Controls large roundworms (Ascaridia spp.) in chickens and turkeys.

• Controls both large roundworms (Ascaris lumbricoides) and nodular worms (Oesophagostomum spp.) in swine.

• Controls large roundworms (Toxocara canis and Toxocaris leonina) in dogs and cats.

• Controls large roundworms (Parascaris equorum), strongyles (Strongylus vulgaris) and small strongyles and pinworms (Oxyuris equi) in horses.

INDICATIONS

A wormer for use in the drinking water of poultry, swine, horses, dogs and cats.
DIRECTIONS FOR USE

One Gallon of PIPERAZINE-34 provides treatment for:

- 25,600 chickens 4-6 weeks of age
- 12,800 chickens over 6 weeks of age
- 12,800 turkeys up to 12 weeks of age
- 6,400 turkeys over 12 weeks of age
- 25,600 pounds of swine body weight
- 2 Tablespoons equal 1 fluid ounce

**CHICKENS:** Add ½ fluid oz. PIPERAZINE-34 to 1 gallon of drinking water and treat 100 birds under 6 weeks of age or 50 birds over 6 weeks of age.*

Allow 1 gallon of medicated water for each 100 birds under 6 weeks of age or 50 birds over 6 weeks of age.*

**TURKEYS:** Add 1 fluid oz. of PIPERAZINE-34 to 2 gallons of drinking water and treat 100 birds under 12 weeks of age or 50 birds from 12 to 18 weeks of age or 25 birds over 18 weeks of age.*

Allow 2 gallons of medicated water for each 100 birds under 12 weeks of age or 50 birds from 12 to 18 weeks of age or 25 birds over 18 weeks of age.*

Treat chickens and turkeys at 4 to 6 weeks of age and repeat monthly or when necessary.*

*FOR FLOCK TREATMENT OF CHICKENS AND TURKEYS, USE AS A SOLE SOURCE OF WATER FOR 1-2 DAYS.

**SWINE:** Add ½ fluid oz. To 1 gallon of drinking water for each 100 pounds of body weight.

Allow 1 gallon of medicated water for each 100 pounds of body weight.

Give as the first and only drinking water in the morning and allow it to remain until it is all consumed.

Treat swine at 8 to 10 weeks of age and repeat monthly or when necessary.

Treat gilts and sows 1 month before breeding and 1 month before farrowing.

**Water Proportioner Directions:** To make stock solution for medicator which delivers 1 fluid oz. Of medication per gallon of drinking water, mix 1 part of PIPERAZINE-34 with an equal amount of water.

**HORSES:** Give 1 fluid oz. Of PIPERAZINE-34 for each 200 pounds of body weight. Give the full dose with a dose syringe. If feed administration is preferred, give bran mash with a small amount of PIPERAZINE-34 for 2 or 3 feedings, then give full dose in bran mash.

Repeat treatment in 30 days or when necessary.

**DOGS and CATS:** Give ½ ml. (8 drops) PIPERAZINE-34 for each 6 pounds of body weight. Dose the dog or cat individually or give in milk, water or food.

Repeat treatment in 30 days or when necessary.
