

INTERVENE

We live in a world today where food safety is on the forefront of people's minds and on the front page of every publication, whether it's electronic or print. People are constantly discussing food safety. They want safe wholesome products for themselves and their families that are free from antibiotics and other drug additives. The wave of desire for food safety truly reaches around the world. Producing safe food is a priority for leading food companies, because it's demanded by customers - young and old alike.

Intervene is a revolutionary breakthrough in microbial control providing customers with safer feed that leads to the safer food they desire. Intervene is the culmination of years of research and practical day-to-day operating experience, applying HACCP to improve feed safety. Intervene combines powerful feed sanitation with potentiating organic ingredients to promote intestinal health, all in one convenient premix.

INGREDIENTS: VERXITE GRANULES, FORMALDEHYDE, PROPIONIC ACID, CARVACROL, CINNAMALDEHYDE, CAPSICUM OLEORESIN, THYMOL, EGG PRODUCT, CALCIUM HYDROXIDE, SODIUM HYDROXIDE AND OREGANO OIL.
