

Old Stone Fort water-soluble products have been designed for all poultry species. The OSF line of products is ideal to meet the needs of the backyard poultry producers.

OSF products supply supplemental nutrition often lacking in backyard production. OSF solutions include products to maintain:

- *Optimal bird health*
- *Proper digestion*
- *Healthy gut function*
- *Eggshell quality*
- *Proper hydration*

Conveniently packaged to fortify five gallons of drinking water.

General Program Recommendations

WEEK 1:

Fortify drinking water with OSF Vitamins and OSF Probiotics Plus for first seven days.

WEEKLY:

Fortify drinking water with OSF Vitamins and OSF Probiotics Plus for 2 days.

STRESS PERIODS:

Fortify drinking water with OSF Electrolyte.

WET DROPPINGS:

Fortify drinking water with OSF Acidified Copper.

LAYING PERIOD:

Fortify drinking water with OSF Egg Shell. Administer weekly during egg production. Administer twice per week at first signs of reduced egg shell quality to include deformed shells, soft shells, or reduced egg size.

ELECTROLYTE

BALANCED ELECTROLYTE WITH
VITAMIN C FOR PROPER HYDRATION

BENEFITS

A potent source of supplemental electrolytes and Vitamin C. Aids in the maintenance of healthy fluid balance and retention. Hydrates cells and reduces electrolyte loss during periods of heat or handling stress.

- Supports optimal bone health
- Vitamin C aids in stress reduction

VITAMIN

VITAMINS TO MAINTAIN
OPTIMAL BIRD HEALTH

BENEFITS

A superior water soluble source of essential vitamins for all species of poultry. High vitamin concentration maintains muscle and heart function. Essential for healthy skin, feathering and reproduction. Maintains electrolyte balance during periods of reduced feed consumption and stress.

- Antioxidants to support the immune system
- B Vitamins support proper growth
- Vitamin D to maintain proper bone development

EGG SHELL

CALCIUM AND VITAMIN D
VITAL FOR EGGSHELL QUALITY

BENEFITS

A premium source of soluble calcium, energy, vitamin D and micro-minerals essential to development of properly formed, durable egg shells.

- Calcium is required for strong eggshells
- Vitamin D supports calcium absorption

PROBIOTIC PLUS

SYNBIOTIC BLEND TO
AID PROPER DIGESTION

BENEFITS

Synbiotic multi-species microbial blend with prebiotics, fortified with micronutrients to enhance digestion and nutrient absorption. Stabilized to work in chlorinated water. Provides more efficient meat and egg production while protecting normal gut function with stable beneficial bacteria.

- Probiotic blend for optimal gut function
- Supports a strong immune system
- Aids in protein digestion
- Prebiotics support probiotic growth
- Stabilized for maximum efficacy in chlorinated water

ACIDIFIED COPPER

AN AID TO MAINTAIN
HEALTHY GUT FUNCTION

BENEFITS

Provides a superior, soluble source of supplemental copper. Aids in the maintenance of proper gut function and reduces the occurrence of wet droppings.

- Helps to minimize wet droppings
- Copper is a key component of enzyme systems
- Helps maintain a healthy skeletal system
- Convenient package for backyard flocks
- Formulated for all poultry species
