INDICATIONS
Vac-Pac Plus® new generation stabilizer aids in the administration of vaccines for poultry and livestock. It is especially designed to prolong the viability and improve the effectiveness of reconstituted and diluted vaccines.

ADVANTAGES
- More concentrated formula means added convenience and less handling
- Faster wetting and improved solubility results in less time spent mixing vaccine
- Activates immediately to rescue vaccine from the harmful effects of tap water, no waiting required
- Rich blue dye provides visual assurance that the stabilizer has been added, properly mixed, and is visible at the drinker
- Specially engineered to preserve the livability of mixed vaccine and sustain effectiveness over longer vaccination times
- Will not clog drinkers

CAUTIONS
Not for spray, aerosol, or injectable vaccine application.
This product is specifically formulated for water administration only.

WARNING
Keep out of reach of children
Not for human consumption

PACKAGING
Net contents 18.75 lb (8.5 Kg) in 75 x 4 ounce (113.4 gram) packages

STORAGE
Store in a cool, dry place
