

OINKMENT[®] *Spray*

QUICK DRYING ANTIMICROBIAL FLEXIBLE FILM BANDAGE

INDICATIONS

For use as a topical protective barrier on the skin of swine to shield from abrasion and guard against contamination that may cause infection.

ADVANTAGES OF OINKMENT

- Easy to spray, dries fast to form a flexible film bandage for abrasions, cuts and scrapes
- Covers and seals wound to maintain clean, moist healing environment
- Antibacterial and antifungal activity
- Deters tail biting
- Soothing analgesic action
- Highly visible
- Safe, non-toxic 100% food approved components
- No preslaughter withdrawal required
- Removal and cleanup with water

DIRECTIONS FOR USE

For best results, clean and dry the wound and surrounding skin for good adhesion. Apply Oinkment[®] with spray tip 6 inches from wound, spraying to completely cover the wound and overlap onto surrounding healthy skin.

Reapply every other day or as required to keep the wound sealed until satisfactory results are achieved.
