*Specification Sheet*

## INDICATIONS

Gel-Pac<sup>®</sup> Ready to Use new generation stabilizer aids in the administration of gel-delivered vaccines, probiotics and nutritional for poultry. It is especially designed to prolong the viability and improve the effectiveness of reconstituted and diluted vaccines, probiotics, and nutritional ingredients in a gel that is conveniently ready to use and easy for birds to consume on day of hatch.

## ADVANTAGES

- Ready to use edible Gel uniformly suspends additives for gel spray applications
- Convenient to spray through all gel applicators
- Individual gel drops are easily consumed
- Will not soak feathers
- Readily visible to the birds
- Buffered for ideal pH
- Instantly neutralizes harmful effects of chlorine and other oxidizers
- Electrolyte composition supports balanced tonicity

## INGREDIENTS

Water, Maltodextrins, Hemicellulose Extract, Water Stabilizing Compounds, Gum Acacia, Propylene Glycol and Artificial Coloring.

## CAUTIONS

Keep out of reach of children.  
Not for human consumption.

## PACKAGING

4 x 4 LITER BOTTLES

## DIRECTIONS FOR USE

Ready to use gel does not require dilution. Prepare Gel Spray by thoroughly mixing the desired concentration of edible vaccine, probiotic or nutritional additives.

Spray gel through a suitable gel applicator for young poultry to consume. Green coloring in the gel spray will mark the tongues of birds for consumption monitoring.

**This product does not contain restricted animal material.**

## STORAGE

Store in a cool dry place.
