ATTESTATION

I am the Director, Division of Compliance, within the Center for Veterinary Medicine, Food and Drug Administration (FDA). In this capacity I issue Certificates to Foreign Government concerning the manufacture, preparation, and marketing of drugs in the United States and the Current Good Manufacturing Practice (cGMP) status of the plant that produces them.

It is certified that the above manufacturing facility may manufacture, prepare, market and legally export products from the United States at this time. The plant is subject to the jurisdiction of the FDA and is subject to periodic inspections. The last such inspection showed that the plant, at this time, is in substantial compliance with Current Good Manufacturing Practice regulations as required by the Federal Food, Drug, and Cosmetic Act.

This Certificate is not a substitute for a Certificate to Foreign Government that attests to the legality and exportability of specific animal drug products.
